

# Computerized Lumbar Decompression.

in the hands of Board Certified Rehabilitation Doctors

We have had **CLD THERAPY**  
in our office for about 3 years and the following comment from one of our  
patients is reflective of what many are experiencing with this therapy:

*"I only wish this machine was around 11 years ago.  
I probably wouldn't have had the first back surgery.  
Now since I'm pain free, I can go golfing and pursue  
other hobbies I haven't done in years."*
