

Last year, Gloria traded in her walker

---

# FOR A SADDLE.

A year ago, Gloria was nearly wheelchair-bound. Thanks to a hip replacement at Community Hospital, she's now riding her horse and living an active life. Each year we replace more than 500 hips and other joints, reducing pain and giving you greater freedom of movement. It's a comprehensive joint-replacement program with minimally invasive options. Before surgery, our nurses fully prepare you in a friendly classroom setting. After your procedure, our physical therapists help get you back on your feet. For more information about how we can help you, contact us at (831)625-4713 or go to [www.chomp.org](http://www.chomp.org).
