

The very latest in imaging technology is available at Mee.

Web-based medical images enable
faster, better decision making.

Mee Memorial now offers the first large scale, fully-featured, Web-based radiology image and information system in Monterey County. The Picture Archiving and Communication System (PACS) securely stores your medical images and makes them available to all your doctors and specialists. Immediately accessible, high-quality images help you and your doctors make better-informed decisions, together.
