

Defining Community Banking

Service, Involvement, Leadership

What is community banking?

It is local people dedicating countless hours to improving our standards of living.

It is the goodwill earned throughout years of trusted partnerships.

It is being treated courteously and fairly - and being greeted by your name when you walk in our door.

It is reinvesting in our community through loans to local businesses and sponsorships to numerous non-profit organizations.

It is what we at Rabobank believe wholeheartedly and act upon every day.
